Total Canadian Potato Storage Holdings on January 1, 2021 are down significantly, 4.8 million hundred weight or 7% below the 3-yr. average. The biggest decrease is in Eastern Canada with a reduction of 14.3%. The 5.7 million hundred reduction was partially offset by increases in Ontario, Manitoba, and British Columbia. New Brunswick had the largest reduction with only two thirds of their average production available in storages.
